# CHAIRMAN'S MESSAGE

**Mr Lee Kim Siang, BBM(L)**  
Chairman  
Thye Hua Kwan Moral Society

**Thye Hua Kwan Moral Society (THKMS)** celebrated 41 years of history in 2019. Over the years, **THKMS** has grown to serve even more people within the community through a wider range of services, coupled with higher quality of care for our beneficiaries. To date, we serve 4 main groups of beneficiaries - the elderlies, families, children and youths as well as persons with disabilities.

2019 was a momentous year for us, as it marked the opening of Thye Hua Kwan Temple. The Temple was built in line with **THK**'s commitment to promote racial and religious harmony in Singapore, where people with different beliefs and ethnic backgrounds can gather in unity and respect for one another. This is done through talks organised at the Temple and a Library of books from various religions to help promote racial and religious understanding. Moreover, portraits of the 5 major religions in the world are also displayed in the main prayer hall to symbolise respect for mankind regardless of race, religion or culture.

Inspired by volunteers and the people working in the social service sector, Mr Lum Hon Fye joined Thye Hua Kwan Moral Charities (**THKMC**) as its CEO in November 2019, with a heart to serve the underprivileged people in our community. Mr Ardi S. Hardjoe was newly appointed as CEO of Ang Mo Kio-Thye Hua Kwan Hospital in February 2020, while still serving as CEO of Thye Hua Kwan Nursing Home @ Hougang. In his roles, he hopes to address some of the eldercare issues faced in Singapore. Mr Lawrence Ng has been serving as CEO for **THKMS** and oversees the running of Super Talent Child Care and Student Care Centres, **THK** Free Meal Centres, **THK** Angsana Home @ Pelangi Village, **THK** Moral Welfare Home and **THK** Free Clinics.

We also celebrated Inter Racial Inter Religious (IRIR) Harmony Nite 2019, to show our unwavering commitment to promote racial and religious harmony in Singapore. The theme for IRIR 2019 was Journey As One: A celebration of togetherness. Inter Religious Organisation (IRO) started the ceremony with the

invocations to reinstate the various beliefs we have in Singapore. With the theme in mind, the 4 Self-Help Groups (SHGs) in Singapore, Yayasan MENDAKI, Chinese Development Assistance Council (CDAC), Singapore Indian Development Association (SINDA) and the Eurasian Association (EA) contributed dance and song items for the event. **THKMS** also contributed performances; **THK** Big Band entertained the audience by playing a medley of traditional songs as well as modern jazz hits and **THK** Harmony Ensemble, a Chinese Orchestra, performed popular cultural songs.

As part of IRIR 2019, we also held a counter-terrorism exercise, known as 'Exercise Heartbeat', at Ang Mo Kio-Thye Hua Kwan Hospital. This exercise was jointly organised by Thye Hua Kwan Moral Society and the Singapore Police Force, supported by the Singapore Civil Defence Force. This simulation exercise served as a timely and solemn reminder in the wake of terror attacks happening around the world.

At Ang Mo Kio-Thye Hua Kwan Hospital, we constantly strive to provide a better quality of care for our patients. In 2019, we launched new initiatives, such as the Gardening Programme and Percussion Programme. Such initiatives helped to lift the patients' moods by keeping them mentally, physically and socially engaged. The tireless dedication of the staff was recognised, as they received The Singapore Health Quality Service Awards and the Community Care Manpower Development Awards.

Thye Hua Kwan Nursing Home @ Hougang was set up to provide person-centred quality nursing care for our seniors, to facilitate aging in the community. Thye Hua Kwan Nursing Home @ Hougang is known to have the largest population of clients living with dementia in a Singapore Nursing Home. Thye Hua Kwan Nursing Home @ Hougang places great emphasis on providing an experiential sensory experience and therapy for their residents with dementia. With such initiatives, it was nominated for the 7th Asia Pacific Ageing Asia Eldercare Innovation Awards in December 2018, under the "Best Dementia Programme" category. It was also shortlisted for the Awards Night at the 10th International Ageing Asia Innovation Forum and eventually awarded as finalist for the Best Dementia Programme.

**THKMS** has provided approximately 49,800 free and subsidised meals for the elderlies in 2019. To date, **THK** has 4 Free Meal Centres, serving meals to the frail and needy in our community. These meal centres are unfunded and are operating on donations and fundraising efforts. Healthy meals are served to ensure that our seniors' dietary requirements are met. This is our commitment to ensure that the needy do not go hungry in Singapore.

**THKMC** has continued to provide help to those in need, such as through 'Meals on Wheels'. This essential service runs 365 days regardless of rain or shine - where warm and healthy meals are delivered twice a day to more than 750 frail or elderly clients. **THKMC** has also enhanced our programmes and services to reach out to the community at large. These includes the launch of 'Seeds of Love' urban farming initiative on 20 July 2019, to promote active ageing for seniors and encourage inter-generation communication. **THKMC** was appointed by Ministry of Culture, Community and Youth (MCCY) to operate the SG Cares Volunteer Centre @ Boon Lay, which was launched on 7 December 2019. This volunteer centre helps to build volunteer engagement capabilities and breed a strong volunteering spirit in the Boon Lay community.

While we remain committed to our mission, which is to help anyone in need - with full respect to their race, colour, creed, language, culture and religion, we cannot do it alone. We thank our Board Members, staff, donors and volunteers, Ministry of Social and Family Development, Ministry of Health, National Council of Social Service, Agency for Integrated Care, Community Chest and Tote Board for the unwavering support. **THKMS** will continue to work closely with these community stakeholders to strive towards our vision, which is to serve mankind.

## THK Angsana Home @ Pelangi Village

**THK** Angsana Home @ Pelangi Village is a gazetted Welfare Home under the Destitute Persons Act. With its commission to recuperate destitute persons, the Home is more than a shelter to 165 main home residents; it provides them with care and rehabilitation. The Home also operates an Intake Centre, for newly admitted persons, and has a capacity for 20 residents.

Thye Hua Kwan Moral Society (**THKMS**) was engaged by the Ministry of Social and Family Development (MSF) to manage the Home for 3 years, effective from 1st April 2018. The Care Model at the Home comprises a holistic assessment of the resident's individual needs where unique care plans and interim goals are fostered - empowering the residents. With an integrative team of nurses, caseworkers, operations and care staff, admin and support personnel, the residents of **THK** Angsana Home @ Pelangi Village are guaranteed quality care and support.

### SOUNDEYE

An intelligent monitoring system that is able to pick up calls of distress from residents facilitating a more efficient response by home staff on duty.

## Strategic Partnership

**THK** Angsana Home @ Pelangi Village continuously explores to collaborate with more external partners. In 2019, a new partnership was forged with Yio Chu Kang Chapel, while the Home maintains close relations with pre-existing partners such as National Addictions Management Services (NAMS), Industrial & Services Co-operative Society Ltd (ISCOS Singapore), Institute of Mental Health, Singapore Association for Mental Health, and the Esplanade.

On 12 December 2019, residents of the Home were invited to the Esplanade to enjoy a Chinese drums performance. The residents got hands-on experience on playing the drums as they learnt basic percussive rhythms. However, the biggest takeaway would be learning the importance of teamwork and building a strong sense of community.

## Strategic Planning

The Home strives to meet the provocations of the fast-evolving and ever-changing social and technical landscape to constantly provide better and more efficient services to the residents. As the Home embarks onto the final stage of the 3-phase strategic plan known as “Angsana Future Ready” in 2020, the Home has initiated the Angsana Residents Movement System, an electronic system to track and account for the movement of residents with a supplementary section for staff attendance, along with the SoundEye.

## New Programmes and Initiatives

### Percussion Programme

The objective of the Percussion Programme is to enhance patients' sense of confidence, increase their social skills and allow the appropriate release of emotions.

Patients are involved in playing percussion instruments like Bass Drums, Hand Drums and Hand Percussion (Tambourines, Shakers, Hand Bells, Triangle etc). Playing such instruments helps patients to reduce tension, anxiety, depression, stress and improve their joint mobility, posture and motor skills. Patients are guided by the trainer and his assistant, and the volunteers distribute the instruments to the patients and encourage the interaction between patients.

The programme seeks to create gardening opportunities for patients to remain active and engaged during their stay in Ang Mo Kio-Thye Hua Kwan Hospital. To do so, they have to loosen the soil, remove weeds and water the plants with the help from volunteers at times. Volunteers also assist to wheel the patients around the garden to catch some fresh air. Through this activity, patients are able to bond with the volunteers.

# Thye Hua Kwan Nursing Home @ Hougang

Thye Hua Kwan Nursing Home @ Hougang was set up to provide person-centred quality nursing care for our seniors, to facilitate aging in the community. As of December 2019, there are 277 admitted patients, including 125 elderly patients with dementia.

A series of programmes and community partnerships are in place to keep the residents engaged and actively stimulated to counter the four major problems of loneliness, boredom, despair and isolation which are common problems for many seniors staying in residential care.

Thye Hua Kwan Nursing Home @ Hougang is known to have the largest population of clients living with dementia in a Singapore Nursing Home, with modern facilities to enhance overall well-being. The nursing home places great emphasis on providing an experiential sensory experience and therapy for their residents with dementia. By launching the sensory room, which is a space for enjoying a variety of sensory experiences and gentle stimulation of the senses in a controlled way, Thye Hua Kwan Nursing Home @ Hougang became the first nursing home to implement this innovative purpose-built room. Thye Hua Kwan Nursing Home @ Hougang was shortlisted for the Awards Night at the 10th International Ageing Asia Innovation Forum and eventually awarded as finalist for the Best Dementia Programme.

## New Programmes and Initiatives

### Nurse-led Programmes

The nursing team from dementia wards would conduct daily sessions with the residents using dementia boards and blankets. Items like these provide engagement that can be calming and help to prompt special memories or a sense of usefulness, or evoke feelings of joy. This can lead to sustained periods of improved mood and self-esteem, and increased social interaction. There are also Art & Craft sessions held by the nursing team, to engage the residents and keep them mentally active.

Sensory Art sessions were held on every Monday, and are led by therapy aides and healthcare assistants. 3 residents from each ward attend these weekly sessions and new residents will be selected to join every quarterly.

Nagomi Pastel Art Workshop was piloted on 20 August 2019 and is currently conducted by a therapy aide and 3 nurses who are trained. This workshop is for residents in the wards, especially those bed bound residents who need to develop their hand and fingers motor skills.

### Workshops for the residents

Forest 3 Educare is a member of raISE Singapore, Centre for Social Enterprise which offers Art & Craft Programmes and aims to build an inclusive society while developing skills such as creativity. Forest 3 Educare's "We CARE Art & Craft" started on 31 October 2019, with sessions held every Thursday and is funded by Visa Inc. These workshops allow the residents to exercise their hands and create beautiful craftwork. Outings were also planned so that residents can do their artworks outside the nursing home.

## New Programmes and Initiatives

### Therapy-led Programmes

Snorezen Therapy is held weekly in our spacious sensory room at Thye Hua Kwan Nursing Home @ Hougang. Led by the occupational therapist and the rehabilitation team, there have been promising preliminary results in terms of the calming effect in addressing “sundown syndrome” in seniors, improvement in maladaptive behaviours and cognitive aspects of attention, memory recall and social interaction.

Exercise Corner Programme was implemented in February 2019, where the therapists engaged dementia residents with individual and group exercise sessions. They also put in place a Falls Prevention Programme where baseline data are collected and outcome measures are reviewed every six months.

## Projects and Collaborations

### Safety Sound & Motion Alert System (SoundEye)

A Non-intrusive Safety Monitoring & Alert System (Soundeye) was installed to enhance patient safety. It allows the monitoring of abnormal sounds and motion in washrooms and ward areas, and also detect abnormal movement or sounds of residents at night. This round-the-clock safety monitoring installation allows our nurses to be more productive in their care duties, while also ensuring safety for the residents. With the ability to detect emergencies in wards and washrooms quickly, this system provides caregivers with the assurance that their loved ones are in safe hands with the use of technology.

### Automated Repositioning System (TurnAid)

Regular bed turning throughout the day can be very time consuming and taxing on the care staff, especially when assisting heavier clients. TurnAid, an automated repositioning system, has eased the manual work of the staff while improving workplace safety and care quality for the clients.

### Research Project with Final Year Students from Nanyang Technological University (NTU)

The objective of this research project is to understand seniors' transition to nursing home placements as well as the use of 'Life Review' art sessions for identifying the significance of events and memories for seniors.

These sessions were conducted regularly and explored key psychological aspects of the seniors' life stages and reflections, through the creation of a narrative scrapbook, with themes such as identity and love. 'Life Review' was found to be beneficial for seniors' transition into institutional settings and helped with their adaptation. The final product also allows readers and care staff to understand the seniors better.

The nursing home also engaged the students to train our staff in 'Life Review' and structured it into a programme to help them better understand the seniors' life journey prior to nursing home admission, enabling ourselves to provide better person-centred care.

Thye Hua Kwan Nursing Home @ Hougang collaborated with North East Community Development Council (CDC), National Trades Union Congress' youth wing (Young NTUC) and Bedok Reservoir - Punggol Citizens' Consultative Committee (BRP CCC) for Project Refresh. As part of Project Refresh, the volunteers visited the residents of Thye Hua Kwan Nursing Home @ Hougang on 14 December 2019 to spread the Christmas festive cheer. Crafts and decoration props made together by the volunteers and residents were used to decorate the place. Member of Parliament for Tampines GRC and Mayor of North East District Mr Desmond Choo and Adviser to Aljunied GRC Grassroots Organisations Mr Victor Lye were also invited to join the festive celebration at the Nursing Home.

SINGAPORE - It may have been their day off but on Saturday morning (Dec 14), 600 young volunteers rolled up their sleeves to paint homes and distribute presents to spread some festive cheer as part of Project Refresh.

The initiative was started in 2016 by the National Trades Union Congress' youth wing to encourage people of all ages to volunteer.

About four times a year - typically before major festivals such as Chinese New Year, Hari Raya Aidilfitri, Deepavali and Christmas - volunteers visit vulnerable seniors who live in their own homes and also drop by nursing homes, to decorate the place and bring some cheer to residents.

The visit on Saturday was conducted in collaboration with North East Community Development Council, which serves Tampines, Pasir Ris-Punggol and Aljunied GRCs, as well as Hougang and Punggol East.

Some volunteers, which included university students, visited public flats in the north-east area to spend time with seniors.

Meanwhile, others helped to decorate a nursing home and work on festive crafts with residents.

In total, they visited 33 flats, three senior activity centres in the area and the Thye Hua Kwan Nursing Home in Hougang.

Ms Ashley Lee, who was with a group of 150 volunteers at the nursing home, said she first took part in Project Refresh as an undergraduate two years ago, and has continued to volunteer after starting full-time work.

"That shouldn't stop," said the 23-year-old systems analyst.

"It doesn't take a lot of commitment, and besides spending time with family and friends in the festive season, you get to make people around you happy."

Tampines MP Desmond Choo, who is Mayor of the North East District, said the turnout was good.

"We wanted to do something that was simple. We wanted to create opportunities (to volunteer) for younger people across all segments of society," said Mr Choo, who is also NTUC's assistant secretary-general.

"Many people found that it was not so easy to find a place they could contribute meaningfully, purposely... so we said let's do something about that."
