Determination and hard work go together.

One minute 'hot' and the next 'cool', one will not achieve.

Therefore, be persistent and determined throughout the journey of cultivation.

Change to be better all the time.

Only with right understanding one sees through all.

Nothing is impossible and with faith all things can be done.

Faith must always be strong.

In life, everyone faces up and down, there is no one who can stay floating at all times, in time of down, do not be discouraged but seek ways to keep afloat.

Deal all challenge with a learning mind.

Events that happened has a cause and reason.

Never to give up easily but persevere.

Change your mindset as you can't change the world.

Endure the hardship in working towards your goal.
