REPUTATION

Reputation is of great importance in today's society.

Entitlement all wishes to gain.

Pride and ego may lead to downfall if one does not manage well.

Use only words one can honor.

Take a step at a time, not to rush into things you are unsure of.

Abstain from making empty promises.

Talk only when necessary for through words one may land into trouble.

If one fails to fulfill to the words given then the reputation built throughout the life is gone within seconds.

Only do what is realistic in life.

Never make any decisions on impulse.

CAUSE

Come here to serve and not to compare.

Always remember that one reaps what one sows.

Using your best effort with unselfish attitude and reach out to those who needs help.

Serve wholeheartedly.

Enjoy what you are doing is more important.
